UPGRADE OPTIONS

FlameShield

If you are constructing in a bushfire-prone area, you are required to use bushfire rated building materials for construction.

Sound Smart

Face a heavily trafficked road and you can't hear yourself think? The Sound Smart range will turn a busy thoroughfare into a blissful urban hum.

Solar Comfort

It is a cost effective way to keep homes at a comfortable temperature all year round, acting as extra insulation from outside elements.

Double Glazing

It is designed to reduce the amount of warmth lost during winter and prevent unwanted heat gain during summer
