## UPGRADE OPTIONS

### **FlameShield**

If you are constructing in a bushfire-prone area, you are required to use bushfire rated building materials for construction.

### **Sound Smart**

Face a heavily trafficked road and you can't hear yourself think? The Sound Smart range will turn a busy thoroughfare into a blissful urban hum.

### **Solar Comfort**

It is a cost effective way to keep homes at a comfortable temperature all year round, acting as extra insulation from outside elements.

### **Double Glazing**

It is designed to reduce the amount of warmth lost during winter and prevent unwanted heat gain during summer
